

## Feedback for Reka

Top:

Have an amazing work ethic and very diligent. As team leader one great thing you did was always made sure we were on track with day-to-day informal meetings on how the work was going for everyone. Documentation skills are amazing and when I had a doubt on how we were on pace, I could easily check anything. Easy going and approachable, when I struggle creatively you would have immediately an idea but would leave space for discussion.

Tip:

Sometimes you can get paranoid and maybe overthink situations, I feel like this is natural to anyone but it's the only feedback I can concretely give as a Tip. Working on this should be relatively easy and straightforward. Don't have much to add to this.
