

Feedback Form year 1 period 2 - Réka Szunyogh-Kocsis

Top:

Every time we work together, I really appreciate your work distribution and the effort you put into making sure everyone fits in. It gives me more motivation and the opportunity to work on things I'm good at, while improving my skills. You always make sure everyone is feeling okay and whenever anyone needs help, you are the first person I come to, because I know you will do your best to help as much as possible.

Tip:

Sometimes I feel like you try to make things “too good to be true”. I love your optimism, but sometimes you set expectations so high that it creates unnecessary pressure, mainly on yourself. Some of the goals you set are a little bit too ambitious for the project's needs. I believe finding a balance between hard work and chill time would be the best fit for you and will also lead to very positive results.
